

IBRAHIM ABDULHAKIM SABHA

Civil Engineer

Profession: Civil Engineer

Position: Graduated Engineer

Born: 1997

Nationality: Syrian

Language: Arabic, Mother Language.

English, very good spoken and written.

Education: B.Sc. Civil Engineering, Cyprus International University, Nicosia, 2019.

Contact: E-mail: ebrahem.sabha@gmail.com Mobile: +971 545653549,

Introduction:

- Graduated civil engineer with good site experience.
- An enthusiastic and highly motivated engineer with vast understanding of design, planning and construction process.
- High ability to understand and come up with design from concept stage to detailed stage by using a computer technology and up to date design software based on the used Manuals and design Regulations.
- I have a high interest in BIM and 3D Modeling.
- Plan to earn a Charterership qualification from ICE - UK and PMP Certificate.
- Ability to work as part of a team so when issues do come up we do work together to figure out how to best solve them.

Skills:

- Attention to details.
- Fast learner
- Good communication skills
- Good time management
- Team work
- Organizational skills

IT Skills:

- AutoCAD
- Revit structure
- MS Excel
- AutoCAD Civil 3D
- Microsoft project

Course Highlights:

- Construction Methods “Management & Engineering”
- Environmental Engineering
- Cost Estimating & Surveying
- Geotechnical Engineering
- Concrete & Steel Design
- Civil Engineering Design
- Structural Analysis & Dynamics
- Water Resource Engineering
- Fluid Mechanics & Hydraulics

Professional Experience:

- **Site Inspector engineer in Reflex Team Construction Company from 11/2016 to 12/2018;**
Project: City mall in Famagusta, Northern Cyprus (Part-time)

Task Assigned:

- 1- Ensure the adherence to design specifications.
- 2- Supervising excavation and foundation casting.
- 3- Supervising concrete casting for all structural elements.
- 4- Prepare reports that documented the construction process of a project and submit them to the site supervisor.
- 5- Assist the Project Manager and Site team to Complete the project in time:
 - Track weekly target daily basis to help PM and Site Engineers to complete a building construction project on time.
- 6- Assist the Site Engineer to ensuring material delivery on time.
 - Estimate the required materials for the task you are going to start next.
 - Send the requisition to purchase department on time.
 - Track the requisition. So that you don't miss the delivery date of the materials.
- 7- Ensuring Safety of the Project:
 - Aware workers about safety.
 - Motivate workers to use personal safety tools & safety materials.
 - Secure all the voids and openings in the project.
 - Request safety inspector to visit your project and give you some idea and instruction about project safety.

- **Site Inspector with Al Mawarid General Contractor from 06/2018 to 09/2018;**
Project: Privet Villas at al Ramla Sharjah, United Arab Emirates (Trainee)

Task Assigned

- 1- Supervising posttension slabs and gaining knowledge in slabs and technique used.
- 2- Supervising piling process starting from excavation to concrete casting.
- 3- Estimates quantities and costs of materials and equipment.
- 4- Supervised other technicians and workers.
- 5- Supervising finishing process of villas.
