Summary

An ambitious professional with excellent communication, organization and co-ordination skills. Having 2 years of valuable construction field track record of executing projects plans and preparing programs. Ensuring that work is carried out according to approved dwgs, company procedures and to the client's satisfaction. Currently I am looking for a suitable position with a straightforward thinking employer.

Work Experience

WAVES Pools & Landscaping LLC, Dubai. **CIVIL ENGINEER (Dec 2018 – Sep 2019)**

Waves Pools & Landscaping is engaged in the construction of Swimming Pool, Water Features, Fountain and landscaping works. My duties as a Civil Engineer at the company are as stated below:

- Ensuring that the client's requirements are met, and the project is completed as scheduled.
- Assuring that each project task is completed as per programmed.
- Ensuring all the milestone completion inspection is done on time by consultant.
- Calculating the required material quantity for given projects. (i.e. Block, Steel, Concrete etc.)
- Reporting to my superior on daily basis keeps the work flow organized and transparent.
- Planning of workers schedule every day in accordance with their strength and given task priority.
- Attending weekly progress meetings for the given projects while discussing the site progress, hurdles and clearing any issue which may delay the project.
- Reviewing of shop dwgs, as built dwgs, material submittals and preparing snag reports.
- Following up with stage wise payments for projects as per the contract agreement and spending company's resources accordingly.
- Proficient at replying to emails and writing letters to sub-contractors, consultants regarding delay, snags etc.

AB Design, India. **CIVIL ENGINEER (July 2017 – Aug 2018)**

AB Design is engaged in the Design and the construction of Residential villas. My duties as a Civil Site Engineer at the company are as stated below:

- Monitoring the project construction and sub-contractors to ensure the guidelines are being maintained as per the company standards.
- Estimation of quantities for steel, mass concrete, brick and block masonry, plastering work, finishing works, labour supply.
- Evaluation of the subcontractor's payment.
- Preparation of daily and monthly progress reports, variation reports and making cash flow forecasting programs.
- Managing the availability of equipment on time.
- Strictly following safety requirements for given task as per the company and municipality safety rules and regulations.
- Clearing any dispute among workers and sub-contractors that may arise at the site.
- Making sure that all the aims of the project are met.

Personal Skills

- Health and safety awareness.
- Good knowledge of AutoCAD.
- Proficient in Microsoft suite (i.e. Excel, word).
- Achieved 7 bands in IELTS (English proficiency test), which represents excellent English speaking, writing and reading skills.
- Ability to understand and present other's point of view.
- Skilled at analyzing and interpreting information.
- Good at dealing with clients, consultant, elected representatives and public in general.
- Able to work collaboratively in a team setting, willingness to learn everything.
