OBJECTIVE

A highly motivated and hardworking Civil Engineer. Throughout my employment as Site Engineer at Saleem group, I have demonstrated my ability to achieve great results and solve problems independently as well as whilst working in a team. Looking to work in an environment that challenges me to improve, whilst utilizing and developing my skills in a useful role for a company with **immediate** availability.

EDUCATION

B-Tech Civil Engineering | Cochin University of Science and Technology

2015 - 2019

Modules includes: Surveying, Drafting, Structural Designing, Retrofitting, Geo-technical, Natural disaster proof design, Waste management and treatment, Highway, Transportation Engineering, Construction management.

11th & 12th Grade | MMH Higher Secondary School

2012-2014

Marks achieved: 89%

EXPERIENCE

Quantity surveying & Site Engineer | Saleem Groups, Kerala, India

AUGUST 2019 TO SEPTEMBER 2021

- **Estimate** interior works of residential house as per requirements of client.
- **Prepares reports** for the ongoing projects in daily and monthly basis.
- **Participates in inspections on site activities**, workmanship and materials received on site to ensure their compliance with the contract requirements.
- **Audits and inspects subcontractor's** materials, plant and works that are being executed, fabricated, or manufactured at site or out of the site.
- **Reviews the variation order / change order / time extensions** with the project manager to give feedback about the impact on the project.
- Providing **technical advice and solving problems** on site.

- Ensures the **inspection of samples/mock-ups** are carried out in line with the project requirements. **Keeps proper traceability** of these benchmarks for future reference.
- **Attends project meetings and conducts the same with the subcontractors** and construction team to ensure quality considerations are well integrated into the work plans.
- **Supports Project Manager** for all site related audits, both internally and externally.
- **Prepares weekly / monthly reports** related to existing project.
- Ensures that all project records are **identifiable, retrievable and secured** against deterioration or loss, and provides help and guidance to site document control team.
- **Checking technical designs and drawings** to ensure that they are followed correctly.
- **Prepares project handover documentation/deliverables** under guidance and supervision from project manager.
