I am an achievement-oriented civil engineer with a successful track record in delivering increasingly challenging projects. My expertise lies in building and leading specialized teams to apply innovative engineering principles and deliver projects to client specifications.

Professional Experience

Amaas International Contracting - Dubai Civil Site Engineer

11/22 - present

- Managing construction projects across project lifecycle
- Ensuring adherence to technical designs and drawings
- Conducting surveys and setting out sites
- Supervised 2.9 million dirham Al-Butinah project
- Overseeing contracted staff and project packages
- Liaising with clients, subcontractors, and professionals
- Providing on-site technical advice and problem-solving
- Preparing site reports and monitoring progress
- Ensuring compliance with health, safety, and sustainability policies

Syria General Co Building & construction - Damascus Civil Site engineer

05/19 - 10/22

- Analyzed project contract, specifications, and plans for efficient execution of work
- Developed project implementation timetable and schedules for technical and regular employment, work teams, materials, and equipment
- Conducted site inspections and promptly communicated any obstacles to project owner
- Maintained detailed project book documenting executed works, supervising engineer visits, weather conditions, and obstacles
- Ensured timely completion of project while adhering to schedule and avoiding delays
- Collaborated with supervision and coordination authority to prevent potential delivery date setbacks
- Proactively addressed on-site errors to maintain smooth project operations

Engineering Center for Trade and Contracting - Damascus QS/QC engineer

01/17 - 04/19

- Reviewed construction plans and prepared quantity requirements
- Scrutinized maintenance, material costs, and contracts for optimal deals
- Calculated quantities of concrete, finishes, and other items, creating extracts for subcontractors
- Collaborated on construction programs to modify and review items

Education

Teshreen University Bachelor's Degree in Civil Engineering - Very Good

11/11 - 10/17

Projects
