## WORK EXPERIENCE

---

*Nov 2019 - Present* | **Software Engineer II, Microsoft.**

Contributed to the core Viva Goals team in executing the migration to Azure Kubernetes Service (AKS) with secure practices, enhancing scalability and facilitating the integration of Ally into Microsoft, laying the groundwork for a product used by thousands of organizations.

Engineered and deployed essential features to enhance product functionality, including a user-friendly Settings Service for seamless app configuration, a Default Organization feature improving tenant management, and robust Audit Logging to audit over 10 million user activities across Viva Goals.

Enhanced Viva Goals intelligence by delivering impactful tasks for Copilot, improving its AI-driven capabilities.

Technology Used: C#, Ruby on Rails, Angular, React, Sidekiq, LLM, Azure SQL, PostgreSQL

*AUG 2019 - OCT 2021* | **Senior Software Engineer, Ally.io (Acquired by Microsoft).**

Collaborated on designing and implementing the Insights feature leveraging Snowflake for advanced analytics and reporting. Independently developed a dedicated microservice using Golang to support this functionality.

Developed the Quick View feature to preview goals instantly, improving user experience.

Technology Used: Ruby on Rails, Angular, React, Sidekiq, Snowflake, PostgreSQL

*OCT 2017 - AUG 2019* | **Software Engineer, Samsung E-Commerce.**

Being part of the core team(Shopping Cart and Orders), developed and designed various features including "Save the Sale" which reduced sales drop by encouraging customers with various incentives, Integrating with carrier, which increased the company revenue by more than 2 Million\$.

Technology Used: Node JS, Javascript, RethinkDb, PostgreSQL, Redis, Elastic Search, RabbitMQ, CockroachDb

*FEB 2016 - OCT 2017* | **Member Technical Staff at Zoho Corporation Pvt. Ltd., Chennai.**

Worked on Zoho Core product, CRM(Customer Relationship Management). Developed various features which include Ordering Providers based on user sign in a Particular Country, Searching Providers. Ported Provider Listing Page from rendering through JSP to Handlebars.

Technology Used: Java, JavaScript, HTML, jQuery, PostgreSQL, Redis.

## EDUCATION

---

- MAY 2015 Bachelor of Engineering in Computer Science  
**College of Engineering, Guindy(Anna University Main Campus), Chennai**
- MAY 2011 Class XII (State Board)  
**St.Sebastian's Mat. Hr. Sec. School, Chennai**
- MAY 2009 Class X (Matriculation)  
**St.Sebastian's Mat. Hr. Sec. School, Chennai**

## SOFTWARE SKILLS

---

### BASIC KNOWLEDGE

REDIS, ElasticSearch, RabbitMQ, Handlebars, CSS, LINUX.

### INTERMEDIATE KNOWLEDGE

C#, Ruby on Rails, Golang, NodeJS, Java, JavaScript, React, Angular, jQuery, TypeScript, HTML, Azure SQL, PostgreSQL, MySQL, MongoDB, Snowflake, Sidekiq, GIT, Kubernetes, Docker.

## LANGUAGES

---

- URDU: Mothertongue  
ENGLISH: Intermediate Knowledge  
TAMIL: Fluent  
ARABIC: Basic Knowledge  
HINDI: Basic Knowledge

## AWARDS AND ACHIEVEMENTS
