## WORK EXPERIENCE

### SOFTWARE ENGINEER

Webkul Software Pvt Ltd. | 2020 – Present

- Reviewed project specifications and design technology solutions that met or exceeded performance expectations.
- Orchestrated efficient large-scale software deployments, including testing features and correcting code.
- Authored development progress reports informing internal personnel and external stakeholders of project milestones.
- Created procedures for system monitoring, recovery, backup, and optimization.
- Adjusted design parameters to boost performance and incorporate new features.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Communicated technical development stages and provided design support to businesses and other stakeholders encouraging participation for on-time execution.
- Identified and documented all project changes by proactively overseeing budgeting and scope concerns.
- Collaborated with clients to define solution requirements, accounting for applicable development variables.
- Installed and configured software applications and tested solutions for functionality.
- Delivered unit-tested systems with required characteristics and within customer-prescribed timeframes.
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.

### SOFTWARE DEVELOPER

Logimetrix TechSolutions Pvt Ltd. | 2019 – 2020

- Collaborated with project managers to select ambitiously, but realistic coding milestones on pre-release software project development.
- Revised, modularized, and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Introduced agile methodologies and development best practices to division to enhance product development.
- Documented technical workflows and knowledge in the private wiki for the education of newly hired employees.
- Trained and managed a team of developers and discussed issues in order to provide resolution and apply best practices.
