### SUMMARY

I am a Project Engineer with solid experience in construction, architectural finishes, and fit-out works. I have worked on key projects like REVAN, ERKHYA, and PLACE. My skills cover the full project lifecycle — including tendering, estimation, contracts, shop drawings, procurement, cost control, and scheduling. I have a proven track record in site supervision, construction execution, quality control, and client coordination. I am committed to delivering projects on time, within budget, and to the highest quality standards. With dedication and a problem-solving mindset, I aim to contribute to the success of your projects.

### PROFESSIONAL EXPERIENCE

#### Ramco trading and contracting

##### Project engineer

Doha , Qatar

02/2025–present
