

CHAM MYAE AUNG

CIVIL SITE ENGINEER

PROFILE

Dedicated Civil Engineer with a bachelor of civil engineering and 7 years of experience in managing residential and commercial construction projects. Played a pivotal role in the successful execution of construction projects, supporting project management, overseeing on-site activities, maintaining client relationships, and contributing to the overall success and quality of the project. Aiming to leverage my expertise to deliver high-quality construction projects on time and within budget.

WORK EXPERIENCE

Senior Site Engineer

China Construction Sausum Private Limited
(A Subsidiary of CSCEC)

11/2024–01/2025

Delhi, India

- Conducting regular site inspections to ensure compliance with approved designs, and specifications.
- Overseeing daily site operations, providing technical support and promptly resolving on-site technical issues.
- Monitoring the construction activities and progress, and reporting to the Project Manager.
- Assisting in managing, planning, controlling, and executing projects from initiation to closure, ensuring they are completed within project milestones.
- Working closely with architects, subcontractors, and other stakeholders, to coordinate activities, resolve issues, and ensure smooth project execution.
- Preparing project reports, including progress updates, resource utilization, and variance analysis for management review.

Senior Site Engineer

River King Ayeyar Construction Co., Ltd

03/2020–03/2024

Yangon, Myanmar

- Oversaw on-site activities, ensuring project delivery met quality and safety standards.
- Conducted site inspections, enforced quality control, and recommended corrective actions.
- Developed project schedules, tracked progress, and mitigated delays using MS Project.
- Liaised with consultants, contractors, and stakeholders to resolve technical and planning issues.
- Maintained project documentation, progress tracking, and cost control to prevent overruns.
- Performed quantity take-offs, and cost estimates, making sure materials and equipment were arranged in advance.
- Coordinated with quantity surveyors and procurement teams to optimize resource planning.
