PROJECT

➤ **College Election Management System Prior**

“College Election System” is a web application developed in java. This application an easy and simple way to both administrator and voters in the collect election process. In this application, voters can give their votes to college from anywhere and at any time. The administrator can add all the details of the candidates with the selected department. The administrator can view all the details of the candidates and if necessary he can delete the details of the candidate. In this application, all the details of the voters can be view in a graph form which makes the work of the administrator easy in analyzing the vote.
