WORK EXPERIENCE

INTERIOR DESIGNER

JULY 2023 - PRESENT

SHARAN GROUP (FIT OUT COMPANY)

DUBAI

- Execute the creative vision through construction and installation.
- Implement space planning through actual construction and modifications
- Realize the design mood and style through material and finish choices.
- Responsible for bringing the design to reality through physical construction.
- Procure materials, furniture, and fixtures as per design specifications.
- Manage construction, structural changes, electrical work, plumbing, and HVAC installations.
- Oversee the quality of work and ensure it meets industry standards and client expectations through inspections.
- Updating CAD data into BIM systems for rendering and 3D modelling purposes
- All Building details like Door and Windows Schedule and elevation develop in REVIT software
- Utilize software such as 3ds Max, V-Ray, Sketchup and AutoCAD and Lumion

INTERIOR DESIGNER

JAN 2022 - JUNE 2023

AR.GAGAN'S HABITAT DESIGNERS

PUNJAB INDIA

- Analyzing and understanding the building specifications, sites.
- Updating CAD data into BIM systems for rendering and 3D modelling purposes
- Using various drafting techniques for creating charts, drawings, and other technical records
- Calculating dimensions and performing measurements by visiting construction sites as and when needed
- Ensuring to adhere to the industry standards and safety regulations at all times
- Executed detailed drawings for custom furnishings and details resulting in visually appealing and functional designs.
- Assisted senior designers in executing design and construction documents and renderings.
- Leveraged 3D rendering software to provide realistic project visuals, resulting in increase in upselling of premium materials

INTERESTS

TECHNICAL ENGINEER

GNA UNIVERSITY

DEC 2019- JUNE 2022

PUJAB INDIA

- Creating technical drawings from architects' sketches and specifications.
- Printing CAD drawing schematics for use by architects, construction managers, and structural and maintenance engineers.
- Entering CAD data into building information modeling (BIM) systems to create 3-D models and renderings.
- Preparing drawings, charts, and records with CAD equipment and conventional drafting techniques.
- Visiting construction sites to perform measurements and calculate dimensions as needed.
- G.N.A Groups as Asst. Technical Engineer (December 2020 to till date) (Software: AutoCAD, Revit
- Architectural, Revit MEP, 3DS Max and AutoCAD Structural
- Detailer)
- Create technical drawings and plans for building by using
- computer-aided design and drafting (CAD or CADD)
- Software programs AutoCAD, Revit, Revit MEP and 3DS Max.
- Provide Skill Based Training for Civil Engineers on
- designing.
- Give Training Related to Engineering Design by using
- various Advance Design Software for Civil engineer on
- AUTO CAD, Revit, Revit MEP and 3DS Max
- Give Detail Training on AutoCAD, Revit and 3DS Max
- (Generative Layout design, 3D modeling design, Detail and
- drafting, Interior, exterior and animation)
- Provide Training of certipoint Exam

SITE AND CAD ENGINEER

Anjali Home Planning & Construction

FEB 2017- JUNE 2019

PUJAB INDIA

- day-to-day management of the site, including supervising and
- monitoring the site labor force and the work of any subcontractors
- Checking Steel Work of Slab, Beam, & Column Before Concreting
- Supervision of The Curing Process
- oversee quality control and health and safety matters on site
- prepare reports as required
- Interior & Exterior Design Create in AutoCAD and 3DS Max
- Create the Valuation report of the building
- Communicate with client
- Interior designing in 3DS Max
- Material & texture assign in 3DS Max
- Present the presentation of the project share with client Animation
- create in 3DS max and walkthrough show in Revit
- Develop the Layout drawing in AutoCAD such as House drawing ,footing drawing and column & beam drawing
