

ABIN JOY DANIEL

INTERIOR DESIGNER

A creative and dedicated interior designer with a solid educational background and hands-on experience from **bachelor of Design** and **internship**. Skilled in transforming ideas into functional and visually captivating spaces through space planning, concept development, and material selection. Proficient in **design software** and committed to staying current with industry trends. Known for collaborating effectively with clients and teams to deliver personalized and innovative design solutions that meet both **practical and aesthetic goals**. Enthusiastic about crafting unique environments that inspire and elevate everyday experiences. Holds a **UAE driving license**, ensuring mobility and flexibility for on-site project coordination and client meetings.

EXPERIENCE

Emirates Golf Club, UAE | Dubai Golf Publication | 2024

Graphic Designer Intern

- Applied knowledge of **design principles and space utilization** to various projects.
- Contributed **creative and functional design ideas** while successfully executing multiple projects.
- **Assisted** in organizing and supporting major events and tournaments.
- Utilized expertise in **Adobe Creative Suite and SketchUp** to create **artwork and 3D mock-ups**.
- Provided **photography, videography, and editing skills** to enhance visual presentations.
- Demonstrated strong **time management and teamwork skills** by collaborating with peers and mentors to complete tasks efficiently and deliver high-quality outcomes.
- Interacted effectively with clients to understand project requirements and ensure satisfaction.
- Gained **hands-on experience** working alongside mentors, acquiring valuable knowledge through various projects.
- Developed an **understanding of materials** suitable for different **design scenarios and applications**.
- Acquired knowledge of **joineries and fixtures** while contributing to multiple projects.
- Delivered **polished, high-quality work** by applying patience, precision, and enthusiasm to each project.

EDUCATION

2020 - 2024

Bachelor of Design (Interior)

Navrachana University, Gujarat, India

Completed Bachelor's degree in Interior Design, Graduated.

2018 - 2020

Diploma of Architectural Assistantship

Moderator Gnanadason Polytechnic college, Nagercoil, Tamil Nadu, India

Achieved First Class with Distinction.

2016 - 2018

Higher Secondary Education (CBSE)

Emirates English Speaking School, Jumeirah, Dubai, United Arab Emirates

Mastered key subjects, laying the foundation for future success.

Proficiency

- Model Making
- Presentation & Composition
- Editing & Creation
- Creativity
- Team work
- Fast learning
- Imagination skill
- Time Management
- Arranging and organizing

Interests

- Exploring places and food
- Analysing art and Designs
- Rhythmical patterns & sound
- Capturing moments and aesthetics

Languages

- English (*Expert*)
- Malayalam (*Native*)
- Hindi (*Literate*)
- Tamil (*Conversant*)
- Arabic (*RDWR*)

Softwares

- Autodesk AutoCAD
- Adobe Photoshop
- Adobe Lightroom
- Adobe Illustrator
- Adobe InDesign
- Adobe Premier
- SketchUp Pro
- Lumion
- Enscape
- Autodesk 3DS Max
- Revit
- Microsoft Word
- Microsoft PowerPoint
- Microsoft Excel
- Canva
- Computer Programming (Python)

EXTRA CURRICULUM

1. Completed the following **interdisciplinary courses** in addition to my core curriculum.
 - **Linocut**
 - Acquired and applied skills in linocut printing by carving a design and successfully executing prints using oil-based paint.
 - **3D Printing**
 - Acquired foundational skills in 3D printing, successfully creating blocks, keychains, and a tissue box, as well as converting a 2D photo into a 3D model for printing.
 - **Microgreens**
 - Developed foundational knowledge in microgreens, including their cultivation, importance for health, and both aesthetic and functional applications in interior design.
 - **Data Analytics**
 - Learned the fundamentals of conducting research on queries, creating data sets to address issues, and presenting data to find solutions.
2. Secured **1st place** in a **Model Making** in a tech fest 2019 at Noorul Islam University, Nagercoil, Tamil Nadu.
3. Secured **Second Top Position** during the **academic year** of Architectural Assistantship Course.
4. KHOJ - winter Course
 - Waste into Wealth: **Developing Sustainable Heat-Resistant Material** (Dec 2023)
 - This study addresses **rising cement demand and its environmental impact** by exploring sustainable alternatives.
 - The project developed **heat-resistant bricks** by combining natural fibers (rice husk, sawdust, cow dung) with clay, offering a sustainable substitute for cement.
5. RSP - Research Study Program
 - Jodhpur - Blue city | December 2023
 - RSP was organized to study **settlement patterns and housing typologies in The Blue City**.
 - The study includes **local construction methods, materials used, and activities in specific spaces**.
 - Settlement patterns are influenced by the terrain of Mehrangarh Fort, which has a significant visual impact on the surrounding colony.

FINAL YEAR DESIGN THESIS

UPCYCLING PCB AS A COMPOSITE MATERIALS FOR INTERIOR SPACE

This design thesis explores repurposing e-waste PCBs (Printed Circuit Boards) into composite materials for interior design.

- With e-waste rising due to increasing reliance on electronics, PCBs—rich in metals, fiberglass, and resins—pose environmental risks if discarded.
- The project upcycles PCBs from discarded laptops and PCs into interior elements like partition walls, table accessories, and lamps, showcasing their functional and aesthetic potential, especially when illuminated.
