SOFTWARE ENGINEER
Sukman Tamang

PROFILE

I am a versatile and results-driven software engineer with 8 months of experience in designing, developing, and testing software applications for a wide range of industries and clients. My strong background enables me to work effectively in a team environment and deliver software solutions that meet business requirements and align with industry best practices.

CAREER

**Software Engineer at Mphasis Ltd., India
May 2022-present**

* Design and develop software applications using Java, Spring, Hibernate, and MySQL
* Collaborate with cross-functional teams to deliver high quality software products on time and within budget.
* Conducted code reviews and assisted with troubleshooting software defects.
* Execute full software development life cycle (SDLC)
* Develop flowcharts, layouts, and documentation to identify requirements and solutions.
* Write well-designed, testable code.
* Produce specifications and determine operational feasibility.
* Integrate software components into a fully functional software system.

ACADEMIC

2022   •   Bachler's in Software development

Nar Bahadur Degree College, Sikkim, India.
