Feb 2020

### Civil Engineer

SEL - Saeb Engineering Limited

Abu Dhabi

I've worked as a site engineer for an infrastructure project for ADNOC with multiple duties of surveying, reporting, supervising and quantity surveying.

As it was my first journey in the UAE, I was able to build great practical experience at different levels, during this journey I have managed to enhance various soft skills including: communication skills, team work, responsibility, problem solving and decision making.

### Civil Engineer-Trainee

PPL - Philadelphia Posttensioning Limited

Amman-Jordan

PPL is a leader company in Jordan specialized in post-tension designing.

- Training and practice on design software: using PROKON and RAM concept software.
- Training and practice on post-tension concrete system.

Jan 2018  
May 2018

### Collage Trainee

ATCCO- Arab Towers Contracting Co.

Amman-Jordan

- During the training period: I had good understanding and built more practical knowledge about site management.
- In addition to that, I gained a good understanding of the process and the workflow of office and field tasks.
- I also observed the common construction elements in a project area of 8,000 m<sup>2</sup> for each floor, based on that I was able to link what I have seen in the field with the knowledge I learned from my college.
