Professional Summary

Data Analytics enthusiast with practical expertise in gathering and confirming complicated data, establishing facts, maintaining databases, and creating valuable insights to benefit the organization's key stakeholders. Proficient in SQL, Power BI, Microsoft Excel and Google Data Studio.

Work Experience

Data Labelling Specialist Intern
Lune Technologies

February 2023 - May 2023
Dubai, United Arab Emirates

- Labelled and annotated large datasets accurately based on project requirements.
- Ensured high-quality annotations by following data labelling guidelines.
- Collaborated with team members and project managers to meet deadlines.
- Conducted quality checks and provided feedback on the labelled data.
- Assisted in developing and improving data labelling processes.
- Adhered to data privacy and confidentiality policies.

Data Analyst Intern
Emplay Inc.

September 2021 - May 2022
Bengaluru, Karnataka

- Delivered data-driven recommendations and insights through a Google Data Studio Dashboard.
- Explored and identified the productivity gap between high and low performers.
- Emphasized key KPIs to enhance productivity and reduce ramp time from 12 to 9 months.
- Contributed to a 40% increase in new hire revenue.
- Conducted exploratory data analysis on client's sales data to evaluate the impact of various sales training programs.
- Built a real-time data dashboard in QlikView to monitor and track the progress and performance of sales representatives.

Technical Skills

- **Power BI Desktop** - Data Modeling, Data Connections, Interactive Data visualizations, Data Analysis Expression (DAX), Power Query, Data Refresh and Scheduled Refresh
- **Microsoft Excel** - Pivot Tables, Power Query, Data Sorting and Filtering, Charts and Graphs, Formulas and Functions.
