PROFESSIONAL SUMMARY

Looking forward for a challenging career to enhance professional and personal skills and to become a valuable asset of the organization. Personal Summary: Possessing a comprehensive knowledge of designing and developing projects to required specifications, focusing on economy, safety, reliability, quality and stability. At present working for an established company that is involved in construction, inspection and maintenance projects throughout the city. Easy going by nature and able to get along with both work colleagues and senior managers , currently looking for a suitable graduate engineer position that allows me to represent my skills and expand my knowledge.
