United Arab Emirates | 055-616-6949 | [zictayag@gmail.com](mailto:zictayag@gmail.com)

## CAREER OBJECTIVE

To be able to apply my knowledge and skills to a position I will be competent in, committed to and professional develop. My openness to learn new things, willingness to undergo training, and work under pressure will further supplement my qualifications.

## QUALIFICATIONS / SKILLS

- Layout using AUTOCAD & MEP REVIT (BIM).
- Trakhees Accreditation Program (Yellow Card-MEP).
- Proficient in using E20-II (Hourly Analysis Program).
- Proficient in operating software MS Word, MS Excel and MS PowerPoint.
- Respectful, and with patience towards work.
- Ability to Multi-task effectively.
- Enthusiastic learner, can grasp the concepts and technical skills, and adapt to new responsibilities and environment.
- Committed performer to quality on every task – from personal interaction with co-workers to service provided to client.

## PROFESSIONAL EXPERIENCE

October 2018 -  Present	<b>MECHANICAL ENGINEER</b> M-Engineering Inc (Dubai Branch) 2nd Floor Suite 205 Rawdat Al-Wasl Building Sheikh Zayed Road, Dubai UAE. P.O. Box. 21479 <ul style="list-style-type: none"><li>Designing and implementing cost-effective equipment modifications to help improve safety and reliability.</li><li>Developing a project specification with colleagues, often including those from other engineering disciplines.</li><li>Developing, testing and evaluating theoretical designs.</li><li>Prepares shop/detail drawings and as built drawings.</li><li>Prepares MEP builders work &amp; composite drawings.</li><li>Ensures and maintains quality for finished drawings.</li><li>Prepares drawing required for government permits and utility companies i.e. RTA,DEWA, &amp; DCD.</li><li>Coordinate the duct work with other trade i.e. structural, piping ,electrical &amp; interior design.</li><li>Intermediate knowledge of different HVAC equipment in term of function.</li><li>Intermediate knowledge of air conditioning design.</li><li>Intermediate knowledge of Sewage,Water, &amp; Fire Fighting Design.</li></ul>
March 2017 –  October 2018	<b>MEP QUALITY ASSURANCE/ QUALITY CONTROL</b> Zublin Construction LLC (Member of Strabag-Zublin Group) 3rd Floor Mashreq Bank Building, Electra Street, Abu Dhabi UAE. P.O. Box. 112978 <ul style="list-style-type: none"><li>Support the implementation, effective utilization, and full compliance of Integrated Management System (IMS) to assigned project / operational location.</li><li>Support the establishment of QA/QC activities and documentation as per IMS and awarded contract specifications to identify and confirm characteristics of construction processes and finished works (including purchased items / subcontracted work) meet requirements and / or agreed intent of design.</li></ul>

	<ul style="list-style-type: none"> <li>▪ Undertake / participate in inspection and testing activities to provide verification, and record that site activities have been completed to applicable requirements.</li> <li>▪ Ensure Nonconformities (NCs) are identified, documented / reported, with root-cause investigation, and effective corrective / preventive measures proposed that are accepted by applicable stakeholder(s).</li> <li>▪ Support the assessment of IMS documentation against contract specifications and requirements, with necessary adjustments as permitted.</li> <li>▪ Support the implementation of IMS with training, and guidance.</li> <li>▪ Identify and / or contribute to opportunities for continuous improvement, including those for IMS.</li> <li>▪ Support the preparation and / or review of Method Statement, and ITP to ensure contract specifications and requirements are identified and addressed.</li> <li>▪ Facilitate the development of necessary QA/QC documentation (check sheets, inspection / verification retained information) to confirm characteristics of construction processes and the finished works (including purchased items / subcontracted work).</li> <li>▪ Provide verification of project / operational location site activities have been completed to applicable levels, and facilitate the involvement of Project Engineer as necessary.</li> <li>▪ Finalize necessary completed inspection and testing documentation with applicable supporting evidence, and provide for review, approval, and distribution.</li> <li>▪ Necessary NCs are identified, documented / reported, root-cause investigated, with corrective and preventive measures proposed which are acceptable to stakeholder(s).</li> <li>▪ Undertake Audits for verification of project / operational location, and of suppliers / subcontractors activities.</li> <li>▪ Support the maintenance and availability of necessary project / operational location retained information (including drawing, Method Statements, ITPs, and Material Approvals, Inspection, Calibration).</li> <li>▪ Coordinate with Third-party Laboratory for the required testing and the issuance of relevant test reports.</li> </ul>
November 2015 –  March 2017	<b>MEP DESIGN ENGINEER</b> La Maison Architects Engineers LLC Office # 301 Al Reem Tower, Al Maktoum Road, Al Buteen Dubai UAE. P.O. Box. 88187 <ul style="list-style-type: none"> <li>▪ Designing and implementing cost-effective equipment modifications to help improve safety and reliability.</li> <li>▪ Developing a project specification with colleagues, often including those from other engineering disciplines.</li> <li>▪ Developing, testing and evaluating theoretical designs.</li> <li>▪ Prepares shop/detail drawings and as built drawings.</li> <li>▪ Prepares MEP builders work &amp; composite drawings.</li> <li>▪ Ensures and maintains quality for finished drawings.</li> <li>▪ Prepares drawing required for government permits and utility companies i.e. RTA,DEWA,</li> <li>▪ Coordinate the duct work with other trade i.e. structural, piping ,electrical &amp; interior design.</li> <li>▪ Intermediate knowledge of different HVAC equipment in term of function.</li> <li>▪ Intermediate knowledge of air conditioning design.</li> <li>▪ Intermediate knowledge of Sewage/Water Line Design.</li> </ul>
April 2014 –  November 2015	<b>CORPORATE ENGINEER</b> Jollibee Foods Corp. Ortigas, Metro Manila Philippines

	<ul style="list-style-type: none"> <li>▪ Assist with MEP Design and reviews of all capital project Including HVAC Design.</li> <li>▪ Provide technical oversight and guidance to DPAS Design, construction, and project management.</li> <li>▪ Assist with All Capital Project in design and construction.</li> <li>▪ Review and comment on all MEP engineering related work performed by engineering consultant.</li> <li>▪ Conduct site inspection to ensure adherence to engineering standard and specification.</li> <li>▪ Review material specification to ensure they adhere to the standards.</li> <li>▪ Develop highly complex, engineering studies, plans, specification, calculation, evaluation, Design documents, and performance assessment as required.</li> <li>▪ Recommend alternative solution to management to meet the engineering standards.</li> <li>▪ Design, develop, modify, and evaluate system, process, or facilities to support the capital improvement project objectives.</li> <li>▪ Coordinate with office staff, consultants, sub-contractor, and other personnel to meet all the project objectives.</li> <li>▪ Any additional task identified by Superior.</li> </ul>
