EXPERIENCE PROFILE:

Highly motivated Professional Civil Engineer with versatile experience of seven (07) years in construction industry background such as Construction of High-Rise Buildings (Commercial Building Retail & Residential Units), Warehouses, and associated Infrastructure Projects. I am particularly adept in the effective management of subcontractors to consistently facilitate the delivery of high-quality projects on time and within budget.

Within my role as a Project Engineer, I have worked on variety of key projects across a range of sectors which has enabled me to develop extensive creative and problem-solving skills. I am flexible, open minded, a natural team leader and player with excellent communication skills at all levels, with a proven ability to work under extreme pressure in any situation and managing remote operations. I am seeking employment in a career promising company where I can best utilize my skills and education and can work in the company of intellectual peers.
