## WORK EXPERIENCE

### Project Engineering in Wisal Tower (Dubai-JLT)

M/s Dubai Civil Engineering L.L.C Dubai, UAE

Consultant: M/s APG

Oct 2020 - Present

Wisal Tower is residential building consist of 4B + UB + G + 39 Floors + Lower Roof + Upper Roof that is located in JLT- Dubai. I was responsible about the following:

- 1- Following all strengthening works for the columns, raft and existing slabs.
- 2- Demolishing Works for structural items as per the approved drawing and method statement from the consultant.
- 3- Ensure that the work and materials are as per the Project Specifications and issued for construction drawing/ final approved drawings from authorities and consultant.
- 4- Ensure that all the works meets the stipulated quality standards.
- 5- Presenting the site progress in the weekly meeting for the client.
- 6- Co-ordination with sub-contractors for a smooth flow of works.
- 7- Co-ordination with the MEP team.
- 8- Co-ordination with Consultant & Project Manager regarding works and inspection.
- 9- Ensure that all resources like Manpower, Materials and Equipment's are available to carry out the work as planned and without any delay or confusions as per the approvals from the consultant.
- 10- Fully support HSE team to perform their activities at site.
- 11- Ensure that all payment certificates for the subcontractors are correct as per the original agreement.
- 12- Plan and schedule the work and efficiently organize the site/facilities in order to meet an agreed Programmed of deadlines.
- 13- Planning & Project coordinating to complete the Project in the Schedule time.
- 14- Prepare daily, weekly and monthly reports for the progress of work and submit them to the consultant.
- 15- Ensure that all authority documents for the project are valid and renew them on time.
- 16- Support the QS Engineer in checking the payment certificates as per the contracts.
- 17- Prepare the inspection of Dubai Municipality and submit it to the Dubai Municipality Portal.
- 18- Follow up with the RTA approvals for the site requirements.
- 19- Finalize all permits and NOC for the project with RTA, DM, DEWA, Empower and local authorities.
