WORK EXPERIENCE

MobileLIVE - *Pakistan*
Senior Software Engineer   **Jul 2021 – Present(1 yr 8 mos)**

- Developed a Canadian cloud-based Vendor Management System that allows companies to manage external workforces, including contractors, temporary workers, and contingent labor.
- Integrated SAP Fieldglass Integration connectors to upload and download data to and from SAP Fieldglass.
- Participate in the full software development life cycle, including requirements gathering, design, development, testing, and deployment.
- Integrated stripe payment gateway with our platform.
- Development of well-designed, testable code using technologies such as React, Node, Angular, JavaScript, and MongoDB that satisfies system and design requirements and conforms to established standards.
- Fixing software issues in existing solutions involves debugging, locating errors, making code modifications in accordance with established standards and protocols, testing, and releasing to production.

eSketchers - *Pakistan*
Senior Software Engineer   **Apr 2017 – Jun 2021 (4 yrs 3 mos)**

- Refactored payment methods in the payment gateway solution which reduced transaction time to one-third. This accelerated faster transactions and the growth of our client.
- Integrated Stripe and Braintree payment gateways.
- Developed an e-commerce SaaS platform for USA-based clients, allowing merchants to create an online store and sell their products on pay-as-you-go and monthly subscription plans.

- Developed a chat support widget in VueJS for customers to have real-time, back-and-forth conversations with support agents.
- Write well-designed and testable code using React, Node, Angular, VueJS, JavaScript, Python, Django Rest Framework, PostgreSQL, and MongoDB that meets the system and design requirements as per accredited standards.
- Performed code reviews and bug fixes, reducing technical debt by 30%.
- Mentored junior developers to follow best development practices and programming standards for efficient and improved application performance.

PROJECTS

PRINTMOZ
- Printmoz is an all-in-one commerce platform to start, run and grow a printing business. With a storefront, printmoz gives an Admin panel with many features that help manage and grow a business.

TRAKWORK
- Trakwork is a cloud-based software platform that allows companies to manage external workforces, including contractors, temporary workers, and contingent labor.

TIPHIVE
- Tiphive is a collaboration platform for remote and flexible teams. Tiphive turns remote working into an engaging social experience with flexible, customizable tools.

LULA INC.
- Lula is an online consumer grocery service that allows consumers to order groceries from multiple stores and deliver them to their doorsteps.

KAKTUS
- Kaktus is a platform for improving employees' well-being. It is an employee well-being mapping tool to increase employee productivity, happiness, and retention.

AVOCATLY
- Avocatly is a platform for allowing attorneys and individuals seeking legal assistance to connect.
