DANIYAL AHMED FARIDI

Email: daniyalahmed798@gmail.com

Cell: **0320-0203351**&**0345-2225951**

CAREER OBJECTIVE:

To work hard with full dedication for the achievement of organization objectives under satisfying job contact, hence enhancing my skill and knowledge and ready to learn new things.

WORKING EXPERIENCE:

➢ Working in **MOBIZ Inc.** as **Oracle/PostgreSQL DBA** (Present/01-Sep-2022)
   (Working for Sanofi Pharma client in Sanofi Environment.)

   Oracle Installation, Configuration, patching, cloning, migrations, Backup Recovery, and upgradation.

   PostgreSQL Installation, Configuration, patching, cloning, migrations, Backup Recovery, and upgradation.

   MySQL Installation, Configuration, patching, cloning, migrations, Backup Recovery, and upgradation.

   PostgreSQL Backup and Restore using pgAdmin tool and pg_dump command line

   PostgreSQL database Extensions configuration and managing

   MySQL Migrations from on-prime to Azure MySQL Server

   Installing & Maintaining the Oracle Database Linux & Windows.

   Configure RMAN backups Hot and Cold.

   RMAN recovery with different scenarios

   Oracle upgraded from 11.2.0.1 to 11.2.0.4 through a manual method.

   Oracle upgraded from 11.2.0.4 to 19c through a manual method.

   Migrate and Upgrade Oracle Database 19c from on-premises to Microsoft Azure Cloud using RMAN.

   Data Guard configuration with multiple Standby.

   Data Guard Switchover and Failover.

   Maintaining Oracle Data Guard

   RAC configuration with multiple Nodes on Oracle Database 19c

Migrate Oracle Database 11g from on-promises to Microsoft Azure cloud using data DUMP.

Migrate Oracle Database 11g from on-promises to Microsoft Azure cloud using a manual upgrade from 11g on-premises to Microsoft Azure VM Oracle 19c.

Performed Monitoring database and SQL tuning.

Diagnose and troubleshoot technical issues of the Oracle Database system.

Oracle Data Import & Export through Data Pump

MySQL data Import & Export through Workbench and MySQL dump

Terraform Deployment and managing Azure PostgreSQL Database

Conversion transformation migration of Oracle database to Azure PostgreSQL database PaaS solution using Ora2pg command line tools

Working & Managing Microsoft Azure like creating VMs, Creating Resource Groups, Azure Storage accounts, Azure Active Directory, Roles, and User accounts, managing price, Azure network, and Azure Synapse

Deployment of Azure VMs RGs and Databases through Terraform.

Git and GitHub branches hands-on experience

Working on the ServiceNow tickets platform.

➢ Worked in **MAXAPEX Cloud** as **Oracle DBA** (01-Jan-21/31-Aug-2022)

Responsibilities& Duties:

Installation of Linux & Configure.

Installing & maintaining the oracle database instances 10g/11g/12c/18c/19c/21c

Maintaining Container and pluggable databases.

Implement and configure RMAN on the test & Production Server.

Create backup plan design and implementation using cold/hot backups.

Create scripts of restore backup for testing and disaster recovery.

Configure RMAN backups Hot and Cold.

Create a Production Server & Test Server.

Upgrade and Migrate Oracle Database from 11201 to 11204 through manual method.

Upgrade and Migrate Oracle Database from 11204 to 19c through manual method.

Configure and implement Data Guard for disaster recovery.

Create multiple standby switchovers and failovers.

Disaster recovery planning strategy

RMAN recovery with different scenarios

Oracle patching, cloning, migrations, and upgradation.

Oracle APEX installation, upgradation, and patching.

Managing database storage and applying defragmentation and high water for database storage.

Performance database monitoring and query tuning.

Created user allocation of appropriate tablespaces quotas with necessary.

privileges and roles.

Manage both views dynamics and statistics.

Configure and manage Oracle Flashback.

Manage all database parameters.

Diagnose and troubleshoot technical issues of the Oracle Database system.

Implement transparent database encrypted TDE and Oracle wallet.

Managing the security of the database.

Modification of tablespaces increases and reduces datafiles.

Managing backup restore & recovery for Oracle on Linux using RMAN.

Data Import & Export with both scenarios expdp, Exp, and Impdp, Imp

Installation of Oracle ORDS APEX Apache servers and Web servers.

Working on different types of FTP and SSH.

Working on Virtualmin/Cpanel installation creation and maintenance.

Working in DNS Server and Email server

Implement and configure TLS/SSL

➢ Worked in **AL-KARAM TOWEL INDUSTRIES** as Junior DBA (12/2019 -12/2020)

Responsibilities& Duties:

Performed Monitoring database and SQL tuning.

Installation of REDHAT Linux &Configure.

Installing & Maintaining the Oracle Database Linux & Windows.

Diagnose and troubleshoot technical issues of the Oracle Database system.

Managing the security of the database.

Maintenance and modification of tablespaces.

Monitored tablespaces size resizing tablespace relocating data files for the Better disk.

Managing backup restore & recovery for Oracle on Linux using RMAN.

Managing and Monitoring Archive.

Implement and configure RMAN on the test & Production Server.

Create backup plan design and implementation using RMAN cold/hot backups.

Create and manage User Accounts.

Create a Production Server & Test the Server

Created user allocation of appropriate tablespaces quotas with necessary.

Privileges and roles.

Data Import & Export

Cloning of database and application R12.

Patching Oracle Application

Managing backup of Oracle application EBS

Managing Services and directories of Oracle EBS Recreate control files for changing database name.

ACADEMIC QUALIFICATIONS:

- **Bachelors in MANAGEMENT INFORMATION SYSTEM (MIS)** from Emaan Institute of Management and Sciences

- **B.COM** from Newport Institute of Communications and Economics.

- **INTERMEDIATE** in (Commerce) from Karachi Board.

- **MATRICULATION** in (Science) from ZMS academy

TECHNICAL COURSES:

- Oracle Database Administrator 11g,12c and 19c
- Oracle Developer & Forms Report 11g
- Oracle Data guard 11g
- Master course in Oracle Databases Upgrades
- Oracle Cloud Infrastructure OCI
- Oracle Cloud Data Management
- Microsoft Azure Fundamentals AZ-900
- Microsoft Azure Administrator AZ-104
- Microsoft Database Administrator DP-300

CERTIFICATIONS:

- Oracle Cloud Infrastructure Foundation Associates
- Microsoft Azure Fundamentals AZ-900
- Microsoft Azure Administrator Associates AZ-104
- Microsoft Azure Database Administrator DP-300
- Microsoft Azure Cosmos Database

SKILLS:

- Oracle Database Administration
- PostgreSQL Database Administration
- MySQL Database Administration
- Linux Administration
- Oracle Data Guard
- Oracle RAC
- Oracle Cloud Infrastructure OCI
- Microsoft Azure
- Linux CentOS, Red hat, & Oracle Linux
- Oracle Enterprise Manager OEM
- Oracle APEX, and ORDS
- Shell Scripting
- Terraform
- Git and GitHub

PERSONAL INFORMATION:

Father Name: Jameel Ahmed Faridi

Date of birth: 11 November 1996

Nationality: Pakistani

City: Karachi

Religion: Islam

Domicile/PRC: Sindh

CNIC: 42201-3427632-3

Address: House No L-480 Sector 5A/4 North Karachi.
