## Summary

As a graduate in the telecom engineering field, there are many opportunities and fields that are relevant. Since moving to the UAE, I am now seeking a challenging new opportunity in the telecom field. I have dedicated my time to various positions and trainings to expand and diversify my knowledge of the field.

I consider myself a calm and collected individual with critical thinking and problem solving skills. With proactive abilities in testing, analysis, safety, and project coordination. A keen team player with an eye for detail, and flexible attitude towards challenges.

## Experience

### Trainee in Technology Refurbishment

Life Refurbishment

Sep 2020 - Present (2 months +) in UAE .

### Radio Network Planner

MTN Sudan
