PROFESSIONAL EXPERIENCE

Empower Associates | 10/2022 – Present
Senior Frontend Developer (React.js) | Remote | United States

- Leading the Frontend Support Team for EmpowerCRM Dashboard alongside creating high-end UI/UX to increase customer retention by 30% in the past 6 months.
- Spearheaded the Front End team and architected systems using cutting-edge tech stack to develop a robust, highly available, and scalable software platform; reduced development server load time by 80%.
- Integrating VITE, Tailwind, and React Lazy for code splitting has improved the CRM overall speed by 45%.

Technologies: VITE, BitBucket, AWS Amplify, CI/CD, React.js, Redux, TypeScript, JavaScript, Prime React, Elastic UI, Tailwind CSS, styled-components, Sass, Node.js, Redux, and CircleCI

PackageX | 10/2021 – 10/2022
Senior Full Stack Developer (React.js / Node.js) | On-Site | Pakistan

- Led a team of 4 devs on PackageX Receive, a tenant-based single/multi-building/site-based software to resolve last-yard package delivery and package loss issues for mailrooms, pickup/drop-offs, and delivery sites.
- Powered by an award-winning package-receiving mobile app that automates paperwork by 100%.
- It also features label data ingestion, package notifications, storage, retrieval, routing, forwarding, pickup, locker integration, and many other logistics workflows.
- Made custom components on top of Ant Design and Material UI consisting of Tables, Cards, Dropdown, Button, Checkbox, Input, and Icons. Authentication was implemented using AWS Amplify.

Technologies: Next.js, Javascript, React.js, Chart.js, TypeScript, Redux Toolkit, HTML5, Styled Components, Node.js, Express.js, RESTful APIs, Agile Scrum, Git, Teams, Slack, Notion, PostgreSQL and AWS Lambda

N3O.ltd | 07/2018 – 10/2021
Senior Full Stack Engineer (React.js / .NET Core) | Remote | United Kingdom

- Developed a high-performance Subscription based greenfield application under N3O Cloud called Engage, Tally & Reach and onboarded UK's top 15% Muslim Charity Organizations in less than 3 years.
- With the feature-rich design, Engage helps them to effortlessly manage and enhance every aspect of the charity.
- Maintained high-level expertise in React state management, including Redux, Redux Persist, and redux-saga, and developed a custom API layer for CRUD, JWT management, and custom middleware interceptors.
- Designed a TypeScript-based highly re-usable Advanced Search Page to handle 85% of the filtering and searching logic for all systems including Donations and Sponsorships to reduce development time by 1 week.

Technologies: Ant Design, React.js, Redux Sagas, TypeScript, JavaScript, styled-components, Intl.Js, Sass, JSON, .NET Core, Azure NoSQL Cosmos DB, Azure DevOps, CI/CD, Azure Message Bus, Microservice Architecture

Agifly | 05/2021 – 08/2021
Lead Full Stack Developer (React.js / Node.js) | Part-Time | Remote | Belgium

- Worked on A multilingual Belgium-based government web application for home renovation and energy cost-saving calculator with centralized controlled pricing.
- Drove an entire stack team and finished a couple of Energy Saving applications using React.Js, Tailwind CSS
- Wrote and consumed REST Apis with Express.Js, Node.Js, Sequelize, and MySQL.

Technologies: React.js, Redux, Node.js, JavaScript, Styled Components, Scss, Sequelize, MySql

ITROOS Pvt. Ltd. | 04/2018 – 06/2018
Sr. Software Engineer (.NET) | On-Site| Pakistan

- Made a real-time currency conversion application using third-party integration tools with 100% accuracy up to the 10th of a second.

Technologies: .NET, C#, Version Control, Entity Framework, Angular, MVC (repository pattern)

Wireless Marketer | 02/2016 – 01/2018
Software Engineer (.NET/IONIC) | On-Site| Saudi Arabia

- Successfully created an internal CRM-based client management, communication tracking, and task management system, which includes pricing and VAT calculation.
- Also conceptualized & finished an image processing application alongside hybrid mobile applications in IONIC Framework.

Technologies: .NET, C#, Version Control, Strategic Thinking, Entity Framework, and MVC.

Xyper Technologies | 12/2014 – 02/2016
ASP.NET Developer (.NET) | On-Site| Pakistan

- Built several applications for the Web and Desktop.
- Also led a small .NET interns team and maintained Lathrop websites & applications.

Technologies: Windows Forms, Asp.Net Web Forms, Asp.Net MVC & Web Services

---

EDUCATION & CREDENTIALS

Post Graduate Diploma (PGD), COMPUTER SCIENCE – Virtual University of Pakistan, Rawalpindi - 2020
Bachelor of Science (BSE), SOFTWARE ENGINEERING – Bahria University, Islamabad Campus (BUIC) - 2014
