Objective

Motivated Board-Certified Hospitalist seeking gainful employment within an outpatient adult medical practice. Experienced in working in diverse healthcare settings. Able to work on own initiative and as part of a team. Dedicated to maintaining quality medical practice standards.

Skills

Good communication skills are essential for interventional cardiologists. As their work is physically intricate, so must be their communication with other medical personnel as they perform complex cardiac procedures. These cardiologists must also explain the procedures to their patients in language they can understand. Pre- and post-catheterization care of patients involves communication skills being used by cardiologists for evaluations and explanations.

Medicine and Dentistry - Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

- Scheduling patient appointments
- Maintaining medical records, and billing and coding information for insurance
- Preparing patients for examination
- Helping physicians with patient examinations
- Taking and recording vital signs, such as blood pressure
- Drawing blood
- Preparing blood samples for laboratory tests
- Giving patients injections or medications as directed by a physician (in some states)
