## PROJECTS

### Project

### FABRICATION OF AUTOMATIC COCONUT DEHUSKING MACHINE

Period:

January 2016 - January 2017

- The main purpose of this machine is to eliminate the skilled operator involved in dehusking the coconut and to completely automate the dehusking.
- The coconut dehusking machines have already been demonstrated in some small scale industries, the process is either manual or Semiautomatic.
- The present work involved the design and development of a coconut dehuser which overcomes the drawbacks of the previously reported implements.
