CESCO OFFSHORE CONSTRUCTION SERVICE INC.

Proposed 21MLi Capacity New Surigao Depot- Insular Oil

JANUARY 3, 2022- NOVEMBER 15, 2024

- Generate, review and approve project specific QC related procedures (i.e. Welding procedures, Dimensional Control procedures, Hydrostatic test procedures, Leak test procedures, NDE procedure, blasting and painting, Material handling procedure, Welding Consumable Control procedures, etc.).
- Generate weld map and material & weld traceability records with the assistance from the design department.
- Perform receiving inspection of incoming material, equipment's (instruments, pumps, valves, etc.) at site or at source as per approved procedures
- Prepare WPS as per project requirement to be used in the fabrication process and coordinate with the Production Department.
- Coordinate with NDE subcontractors, third party surveyors as per quality system and project specific requirements.
- Responsible for the compilations of Project required QC related documents (Manufacturer's Data Report, etc.).
- Participation in the internal QHS audits under the direction of QHS Manager.
- Carry out in-process inspection in accordance with approved ITP & procedure and monitor all fabrication activities.
- Perform Visual Inspection of all the welded joints and coordinate with production and welding supervisor regarding the inspection result.
- Prepare NDE request as per Project Specification requirements and coordinate with NDE subcontractors.
- Monitor and report NDE status to the Production Department.
- Carry out fit-up and dimensional inspection before and after welding process.

QA/QC Engineer

CESCO OFFSHORE CONSTRUCTION SERVICE INC.

Pigging and Hydrostatic Testing of HP Gas Pipeline- First Gen

OCTOBER 4, 2021 - DECEMBER 20, 2021

- Generate, review and approve project specific QC related procedures (i.e. Welding procedures, Dimensional Control procedures, Hydrostatic test procedures, Leak test procedures, NDE procedure, blasting and painting, Material handling procedure, Welding Consumable Control procedures, etc.).
- Generate weld map and material & weld traceability records with the assistance from the design department.
- Perform receiving inspection of incoming material, equipment's (instruments, pumps, valves, etc.) at site or at source as per approved procedures
- Prepare WPS as per project requirement to be used in the fabrication process and coordinate with the Production Department.
- Coordinate with NDE subcontractors, third party surveyors as per quality system and project specific requirements.
- Responsible for the compilations of Project required QC related documents (Manufacturer's Data Report, etc.).
- Participation in the internal QHS audits under the direction of QHS Manager.
- Carry out in-process inspection in accordance with approved ITP & procedure and monitor all fabrication activities.
- Perform Visual Inspection of all the welded joints and coordinate with production and welding supervisor regarding the inspection result.
- Prepare NDE request as per Project Specification requirements and coordinate with NDE subcontractors.
- Monitor and report NDE status to the Production Department.
- Carry out fit-up and dimensional inspection before and after welding process.

SEMINARS / TRAININGS ATTENDED

Basic Paint School (Jotun)

July 18, 2024

LEAN MANAGEMENT (FULL DAY WORKSHOP ON LEAN SIX SIGMA YELLOW BELT)

March 2, 2024

Basic Occupational Safety and Health (BOSH)

July 5-6 2021

EDUCATION

2015 - 2020

Bachelor of Science in Mechanical Engineering

University of Batangas

Kumintang Ibaba, Hilltop Rd., Batangas City, Philippines

PERSONAL DATA

Date of Birth : July 27, 1998

Place of Birth : Batangas City, Batangas, Philippines

Marital Status : Single

Nationality : Filipino

Language : English, Filipino
