SUMMARY

As a Senior Front end Developer with over 5 years of experience, I have consistently delivered exceptional results by creating intuitive and visually stunning user interfaces. My biggest achievements include leading cross-functional teams to successfully launch complex web applications and optimizing performance to improve user experience. With a strong proficiency in modern front-end technologies, I bring a deep understanding of scalable architecture and clean code principles. My attention to detail, problem-solving abilities, and passion for innovation make me a valuable asset in driving impactful projects.

WORK EXPERIENCE

Senior Front End Engineer, Hucu.ai - Chicago, USA   Remote
Jun 2021 — Present

- Established Detail-oriented and user-friendly Web App using React Js, committed to delivering high-quality code that handled 10000+ patients and 1-10 million messages data
- Build reusable components, increased performance, build pixel-perfect mobile App UIs in React Native.
- Build and maintain APIs and micro services using Node Js, Sequelize, Redis, MySQL.
- Experienced in creating and executing test cases to ensure the quality, stability and performance of high-quality applications.

Full Stack Developer, Novatore Solutions - Delaware, USA   Remote
Sep 2020 — Dec 2021

- Responsible for development, testing, maintenance, and support of web and mobile applications, established highly-responsive, mobile-first approach UIs in React and Angular.
- Build flexible and well-structured application architecture,improve along with APIs using Node Js, Express Js, MongoDB. Improve API speed from 40 second to under to under 2-3 second in all cases.
- Build pixel-perfect, buttery smooth UIs across both mobile platforms in React Native. Also Use AWS, Heroku and Digital Ocean for Deployments for various front-end and back-end applications.
- Managing team members and leading projects to successful completion. I am adept at delegating tasks, providing guidance and mentorship to team members.

MERN/MEAN Stack Developer, Global Software Consulting - Lahore, PK   Lahore
Mar 2019 — Aug 2020

- Responsible for development of highly- responsive, dynamic web applications using React and Angular.
- Revamped user analytics configuration by integrating Google Tag Manager and React JS resulting in 100% accurate user event tracking.

- Build complete backend architecture using Node Js, Express Js, MongoDB for many apps.
- Build pixel-perfect UIs across both mobile platforms in React Native and Ionic. Also Use Heroku and AWS for Deployments.

Front End Developer , Diginet Global - Dubai, UAE   Dubai
Jan 2018 — Mar 2019

- Worked with React JS , Redux, Angular, HTML, CSS, Javascript to developing numerous plugins, landing pages, websites and widgets for various clients.
- Leveraged Knowledge in React, Node, JavaScript, NoSQL.
- Being part of international development team, had regular meetings with offshore client technical teams and business stakeholders.

EDUCATION

Bachelors in Software Engineering , University of the   Lahore, Pakistan
Punjab (PUCIT)
Jun 2014 — Jun 2018
