PERSONAL PROJECTS

Comparison of Delay Analysis Techniques Using Primavera Project Scheduling Software (07/2018 - 07/2019)

- In construction projects, delay occurs most of the time which are categorized as Excusable, Inexcusable & Neutral delays.
- Four major techniques were used in the research of our project delay analysis i-e As Planned vs. As Built Technique, Impacted-As-Planned Technique, Collapsed-As-Built Technique, and Time Impact Analysis (TIA).
