Shantanu Suvarna

Software Engineer

Results-driven TIBCO Developer with expertise in TIBCO BusinessWorks, EMS and API-led integrations Skilled in designing, developing, and deploying scalable integration solutions, leveraging SOA, REST, and SOAP web services. Proficient in message-oriented middleware (JMS, EMS), enterprise service bus (ESB), and cloud-based integrations. Strong knowledge of SQL, version control (Git, Bitbucket), and CI/CD pipelines for seamless deployment. Adept at troubleshooting, optimizing performance, and ensuring secure, high-performing integrations. Passionate about problem-solving, automation, and delivering efficient enterprise solutions.

WORK EXPERIENCE

Senior Software Engineer
Coforge Limited: CLIENT: NXP Semiconductors (Thailand) Co.,Ltd
04/2024 - Present

-
- Developed, tested, and deployed integration solutions using TIBCO BusinessWorks (BW) to connect disparate systems, ensuring seamless data flow and communication.
- Configured and administered TIBCO EMS (Enterprise Messaging Service) for message queues and topic-based communication
- Designed and implemented REST and SOAP-based web services using TIBCO Designer, ensuring integration with external systems.
- Analyzed and optimized existing integration solutions, improving performance and scalability.
- Implemented error handling, logging, and monitoring mechanisms to ensure high system reliability.
- Participated in the full software development lifecycle (SDLC), from requirements gathering to deployment and post-production support.
- Worked closely with business analysts and stakeholders to understand business requirements and translate them into technical solutions.

Software Engineer
Sunrayz Technologies Services
06/2022 - 03/2024   *India*

-
- Developed and maintained scalable Java-based applications using Spring Boot, Hibernate, and RESTful APIs.
- Designed and implemented microservices architecture, improving system modularity and performance.
- Integrated Cloud Security best practices to enhance application security and data protection.
- Implemented CI/CD pipelines using Jenkins, Docker, and Kubernetes, ensuring efficient and automated deployments.
- Optimized SQL queries and database operations using MySQL and PostgreSQL, improving system efficiency.
- Collaborated with cross-functional teams in Agile/Scrum environments, ensuring timely project delivery.
- Strong problem-solving skills with a passion for learning cloud technologies.
- Improved application performance and scalability by optimizing queries, caching, and implementing asynchronous processing.
- Collaborated with cross-functional teams (QA, DevOps, and Product teams) to ensure smooth development and deployment cycles.
- Hands-on experience in unit testing and integration testing

TECHNICAL SKILLS

- TIBCO Products: EMS,BW5, BW6, BWCE
- Backend and API Development: Webservices standards (SOAP, WSDL, REST, JSON)
- Version Control System: GIT, Bitbucket
- Database Management: MySQL, Oracle
- Programming Skills: Java, SQL

EDUCATION

Bachelor of Technology in Computer Science (06/2018 - 06/2022)
-
- Data Structures and Algorithms
- Object Oriented Programming
- Computer Networks
- Database Management Systems
- Mathematics
