PROJECT & SEMINAR

Project - Experimental Investigation On Fiber Reinforced Concrete Using Steel wool.

An investigation was done on various mixes of concrete in which coarse aggregate was partially replaced with different percentage of steel fiber. The fresh and hardened properties of these mixes were also compared with that of ordinary concrete.

Seminar - Fiber Glass Fiber Reinforced Gypsum Panel (GFRG)

Study of various advantages and disadvantages, Construction Methods, and other properties of GFRG Panel. Benefits of prefabricated light weight panel in terms of workability, time management, cost reduction, and energy savings.
