🇮🇳 Indian

### Profile

I am a dentist Specialized in Endodontics and I provide the best in patient care working in areas that include, surgical and non-surgical endodontics, restorative dentistry, aesthetic dentistry.

A good communicator who can relate well to patients and convince them to take care of their oral health regularly. Having the ability to deliver patients and their families with top-notch care by demonstrating a track record of ensuring that dental practices in endodontics and operative dentistry are always updated. A competent medical expert with experience correctly identifying and treating patients dental issues. Able to work as part of the dental team, and has a flexible approach to work.

Looking for an opportunity to work with a forward thinking and highly regarded dental organization
