

HAMEED KHAN

BS Telecom

Mobile: +92-346-8980098/+92-300-8980038 E-mail: Hameedjan8585@gmail.com

Personal Details:

Father Name: Naik Amal

Home Address: Village Parrai, Tehsil Barikot, Distric Swat, KPK, Pakistan

Date of Birth: Jan, 15,1988

Engineering Graduation:

2008-2012 **BS Telecom** Bachelor of Science Telecommunication (Hazar University mansehra)

2005-2007 **FSC** Govt jahanzeb college Saidu sharif swat.

Certification: 06-Oct-2022 NEBOSH IGC in occupational health and Safety.

Present Work / Experience History:

1. Worked as Project Coordinator and EHS manager in Spine engineering on Microwave project (Nokia TP Los Survey, Ericsson Microwave and USF DT(2G, 3G & 4G) & monitoring audit project).
2. Worked as Project Coordinator in LCC on Transmission Planning (Nokia TP & Ericsson TI project).
3. Worked as Project Coordinator in LCC on Transmission Project (Ericsson Mobilink-Warid merger project).
4. Worked as IT support engineer in office.
5. Worked as implementation an Engineer in Relacom on 4G LTE+2G Expansion Project (Ericsson WARID Project).
6. Worked as RAN and Transmission Engineer in Relacom on Ericsson Mobilink swap Project.

Experience detail:

Ericsson Eritop ID: 4444

Worked as an implementation Project Coordinator and EHS safety officer at Spine engineering on Ericsson TI, Nokia TP LOS survey and USF DT(2G, 3G & 4G) & monitoring Audit Project

(1-Jun-21 to present)

Project Coordination/Management:

- Maintain projects schedules timelines and milestone
- Facilitate communication between project teams, Customers and management
- Tracking projects task and ensure they are completed on time and monitor project progress and address any delay or issue.
- Conduct Quality control and documentation for all tasks.
- Attends meetings arrange by Ericsson/Nokia/USF to discuss and resolve different implementation and EHS issues
- Looked EHS issue with teams and also with customers

Worked as an implementation Project Coordinator at LCC on Ericsson TI and Nokia TP Project

(May-16 to 30-April-21)

Project Coordination/Management:

- Maintain projects schedules timelines and milestone
- Facilitate communication between project teams, Customers and management
- Tracking projects task and ensure they are completed on time and monitor project progress and address any delay or issue.
- Conduct Quality control and documentation for all tasks.
- Attends meetings arrange by Ericsson/Nokia/USF to discuss and resolve different implementation and EHS issues
- Looked EHS issue with teams and also with customers

Worked as implementation Team leader at Relacom on WARID(Ericsson) 4G LTE+2G Expansion Project

(Jan-15 to Apr-16)

- Execute Ericsson Warid LTE+2G Expansion project all activities
- Team mobilization and proper planning
- Execute project remotely from the head office
- Provide technical help to on site teams to resolve technical issue
- Ability to achieve the target within the given time frame
- Ability to work under stress

Execute activities on b/m Ericsson Solution of Ericsson Warid Project

- LTE MR Intro W/O GSM Mod RBS6601
- LTE MR Intro W/O GSM Mod+ Power System
- LTE Intro on Existing RBS6000 Sites (TMA installation)
- WH site expansion RBS6102+LTE MR
- Link up gradation
- 4WRD (4-way receiver diversity),
- 2G Expansion sites

Project Coordination/Management:

- Project costing and revenue calculation on the base of forecasting
- Prepare Profit and Loss report for every month of Ericsson Warid LTE project
- Costing and revenue calculation
- Coordination with internal higher management as well as customer regarding the ongoing project
- Attends meetings arrange by Ericsson to discuss and resolve different implementation issues

Worked as Engineer at Relacom on WARID(Ericsson) 4G LTE+2G Expansion Project

(July-14 to Jan-15)

- Providing daily progress to customer and management.
- Performed transmission shifting during swap.
- Installation of RBS 6601 for LTE.
- Commissioning of Ericsson Micro Mini Link.
- Co-ordination with Ericsson Supervisor about site Activities.
- Performed Microwave links MMU (1+0, 1+1, XPIC) & SD link installation, commissioning and troubleshooting.
- Ericsson MW links installation and alignment of 0.3m, 0.6m, 0.9m, 1.2m, and 1.8m MW dishes.
- Installation of Ericsson IDU's 2P, 6P & 20P.
- Reporting of link completion and audited reporting.

Executed Expansion (Ericsson Mobilink Expansion Project) activities

- 1)Expansion of TRX (Existing RBS6301 and RRU installation)
- 2)Expansion of TRX (Additional RBS6301 and RRU installation)
- 3)Expansion of TRX (Existing RBS6101 and RUS installation)
- 4)Expansion of TRX (Existing RBS6101+ Additional I RBS6301 and RRU)

Site Engineer Ericsson Mobilink swap (Installation + Swap) Jun 2013- Jul 2014

- Installation and Commissioning 2G
- Performing expansion activities for 2G.
- Configuring and monitoring SAU for alarms through OMT.
- Supervising successful cutovers and alarm verification.
- Useful experience of Traffic Node (CN, 2P, 6P, and 20P).
- Experience of Installation, testing as well as troubleshooting of transmission nodes.
- Performing link up gradation of 1+1, 2+0 and XPIC link
- Managing team for smooth, timely, efficient and proactive operation.
- Perform Routine tests and routine site visits.
- Perform different planned activities especially on live equipment.
- Conduct Test Call on every site, preparation for site Acceptance.
- Responsible for loading IDB site configuration using OMT software.
- Test of feeder cable using Bird site master test equipment.
- Troubleshooting VSWR and Fault location before and after swap.
- Installation and Commissioning of rectifiers.
- Conducting Site Survey for the new and Swap out sites.
- Preparing ATP and SID documentation for new sites and HW upgrades.
- Conducting LOS through Flag test, mirror test and Path survey (if needed).
- Conducting LOS Survey for Rollout Sites
- Conducting TSSR Survey for 3G.
- Survey of Mobilink sites for swap
- Site location with GPS

Computer Skills:

MS. Office, Computer hardware/Software understanding
