PROFILE SUMMARY

Accomplished Backend Developer with 6 years of expertise in Java development, microservices architecture, and cloud technologies. Proficient in building scalable and high-performance applications using Spring Boot, Hibernate, and REST APIs. Actively seeking dynamic opportunities in Dubai to contribute technical expertise and drive impactful software solutions

PROFESSIONAL SUMMARY

- Experienced Software Developer with nearly **6 years** of hands-on experience in **software development** and **troubleshooting**.
- Proficient in key technical areas such as **Data Structures and Object-Oriented Programming**.
- **Effective bug analysis:** Encountering bug patterns to prevent high-priority and critical issues, ensuring improved software reliability and performance.
- **Focus on quality and optimization:** Experienced in implementing best practices and performance-enhancing techniques that improve code quality and streamline workflows.
- **Continuous learner:** Eager to stay updated on emerging technologies.

EXPERIENCE

Accenture | Dec 2020 - Present
Project : Intesa Insurance | Role : Custom Software Engineering Sr Analyst

- Responsible for the development of a web application for the insurance domain, with Java, Spring Boot microservices within the project's custom Darwin Architecture.
- Independently manage the complete backend development and Database.
- Actively take on the responsibility of project's development by addressing open points. collaborating on approaches with the onshore POC to ensure high-quality deliverables.
- Resolved issues in legacy codebases running with WebLogic servers.
- Developed unit tests using JUnit for application stability and worked with Jenkins for CI/CD pipelines to streamline deployments.

Project : Terr-eSante | Role : Application Development Analyst

- Developed a healthcare web application using HTML5, CSS, JavaScript, JSP, Java, Spring MVC, and Hibernate and Provided unit test cases with JUnit.
- Designed and implemented RESTful APIs for third-party service integrations, handling various authentication mechanisms.
- Contributed to front-end on dynamic content resizing using JavaScript and CSS.
- Achieved a 97% reduction in processing time by implementing a multithreading solution using Java's CompletableFuture

Wipro Technologies | Aug 2018-2020
Project : LATAM airlines | Role : Project Engineer

- Advancing on web application of cargo services in LATAM countries by using technologies such as Java, Spring MVC and hibernate
- Recognized for resolving massive number of bugs and provided optimized solution for massive data returned by search screen .
- Engaged in UI developments by studying the underlying user-defined frameworks

TECHNICAL SKILLS

Programming Languages:
Core Java,Java8

Web stack:
HTML,CSS,javascript(basic)

Frameworks:
Spring MVC, Spring boot, Hibernate, Rest API, JPA,JSP

Build Tools:
Gradle, Maven ,Jenkins

Repository:
Tortoise SVN, Github

DBMS:
MySQL , Oracle11g

ADDITIONAL SKILLS

- Cloud Elevate training (AWS)
- Microservices architecture
- Kafka
- Docker (basics)
- Kubernetes (basics)

AWARD

GO GETTER STAR AWARD
Recognized for rapidly acquiring project knowledge and delivering high-quality enhancements
Accenture

TOP GEAR CHALLENGE
Received cash award in a programming competition for an enhancement
Wipro Technologies

THE TECH STAR
Developed complex screen web application with grace and quality.
Wipro Technologies

EDUCATION

BACHELOR OF ENGINEERING , COMPUTER SCIENCE AND ENGINEERING

PSNA College of Engineering and Technology | 2014 - 2018
