6+ years experienced Software Engineer highly skilled in software development, testing, documentation, etc. across a product's complete development life cycle. Adept at end-to-end software design & development including requirement gathering, documentation, coding & unit & integration testing. Handles complex project management & coordination work very efficiently to deliver results. Proficient in an assortment of technologies including Java, C#, Angular, JavaScript, jQuery, Web API, and Microsoft SQL Server. Able to effectively self-manage during independent projects and collaborate in a team setting.

Technical Skills

- **Frontend:** Angular, Angular JS, React JS, jQuery, Javascript, HTML & CSS
- **Frontend Libraries:** NG Bootstrap, NgRx, RxJS, jQuery, jQuery Data tables, Angular Material, Bootstrap, D3, Lodash, Moment
- **Backend:** Java, Spring Boot, C#, ASP.NET, ASP.NET Core Web API, ASP.NET MVC Framework, Node JS
- **Databases:** SQL, MySQL
- **Cloud:** Azure
- **Source Control:** GitHub, TFS
- **Project Management Tools:** Jira, Azure dev-ops

Achievements and certifications

- Key Contribution Award for Best performer in the field of fulfilling client values and it's needs
- Safe Practitioner Certified
- AZ-900 - Microsoft
- AZ-204 - Udemy
- Certified Javascript - Advanced
- Certified Angular (2+) – Advanced

Experience

AUG 2021 - PRESENT

Senior Software Engineer at Wissen Technology – Bangalore

Projects

- **CRD UI:** It is an internal project for managing clients.
- **Client Index:** It is a service that obtains customer data from the database and third-party APIs.

Roles and responsibilities

- Working for a client Morgan Stanley.
- In charge of the complete front-end feature development, unit testing, and API integration.
- Implementing new features to the front-end application and also working as a back-end developer if there is a resource crunch.
- Implemented a new project that incorporates an external API to fetch and load data & documents for clients.
- Working on production issues and collaborating with the testing team to ensure product quality.
- Assist the company in hiring fresh individuals and mentoring recent graduates and juniors in the organization.

Technologies: Angular, React JS, Java, Spring Boot, NgRx, RxJS, Ag-Grid, Bootstrap, NG Bootstrap, HTML & CSS, Javascript, Typescript, GitHub

JAN 2020 – AUG 2021

Application Development Senior Analyst at Accenture

Projects

- **SMART:** It is an internal project for hiring a resource inside or outside of an organization. Responsibilities as a front-end developer include implementing new requirements, Research and development work, and code refactoring.

Roles and responsibilities

- Working on an internal project as a Software developer on HR domain responsibilities including implementation of new requirements, research and development work, code refactoring, and bug solving.

- Implemented a feature to filter out candidates based on different criteria for example skills, location, and business unit using Java and React js
- Implemented a CI/CD for recruiting engine.

Technologies: React JS, Java, Spring Boot, REST API, HTML & CSS, Javascript, Typescript, SQL, GitHub

APR 2019 – JAN 2020

Associate Consultant at Capgemini

Projects

- **Adesa Global:** The goal is to provide customers with access to an online used-car auction. I have used Angular 7 to develop front-end applications. Calling an external API, creating an interface using mockups, supporting a responsive user interface for a range of client-provided devices, and comprehending requirements are all responsibilities.
- **Pattern Library:** This project is a component library for the Adesa Global series of applications that includes a set of sharable components that can be used by multiple applications.

Roles and Responsibilities

- Coordination with the backend team for API integration.
- Using the mock-ups provided, I created a full-fledged UI.
- Made a responsive user interface for various devices provided by the client.
- I coordinated the workflow between product owners, testers, business analysts, and developers.

Technologies: Angular, HTML & CSS, JavaScript, TypeScript, Angular Material, Node JS, DynamoDB

JUL 2016 – MAR 2019

Associate Software Engineer at CeX Webuy Entertainment

Projects

- **RMA Warehouse System:** It is used by the RMA team to track all the items being stocked into RMA and stocked out of RMA Warehouse. This application features stock-in of items, stock-out of items, scrapping of items, and generating various reports.
- **Category Manager Module:** It adds a new category and edits existing category details.
- **Useful Information Module:** Using this module, we can get the shop details and display them in card format. **Branch Manager Module:** This module is used to add and edit the branch details, and they are categorized into three parts: branch details, Web Store Page Details, and branch management.
- **Customer Store Feedback Module:** This module is used to see customer feedback for a period for which they need to analyze this feedback data.
- **Kiwi:** This project was created in ASP.NET CORE and is a backend for all applications.

Roles And Responsibilities

- Played a major role in migrating the whole front end of the RMA Project to Angular JS from the YUI framework.
- Created backend APIs in Dot Net Core for various clients.
- Implemented a CI/CD for various modules to deploy independently.
- Made a responsive user interface for various devices provided by the client.
- Developed and maintained various applications using technologies such as.NET, #, SQL, and /Angular JS.
- Worked with UI/UX designers to create and implement the best design.
- Worked with the test engineering team to assure product quality. Maintained timely communication with clients and business partners.

Technologies: Angular, C#, HTML & CSS, jQuery, JavaScript, ASP.NET MVC, jQuery Data tables, ASP.NET Core, SQL, MYSQL, WebAPI, PowerShell

Education

JULY 2013 - MAY 2016

Bachelor in Computer Engineering from Mumbai University

JUN 2010 - MAY 2013

Diploma in Information Technology from Maharashtra State Board of Technical Education
